

Edible Aquarium

jelly beans
powdered blueberry gelatin mix
gummy fish
fruit cocktail
parsley sprigs (optional)
clear plastic cups or new goldfish bowl
ice cubes
cold water

1. Make blueberry gelatin by adding water with ice cubes to the powdered mix.
2. Stir until thickened
3. Add the gummy fish and fruit cocktail.
4. Place jelly beans in the bottom of the goldfish bowl or cups to look like gravel. Pour the gelatin mixture over a knife to keep from disturbing the gravel in the cups or goldfish bowl.

If desired, place parsley into the gravel to represent aquatic plants.
